## EXTERIOR DESIGN

Break the rules, soar to new heights and conquer any trail with Chevrolet Colorado High Country Storm, the ultimate premium American truck.

Striking design with a unique accessories pack for a customized muscle car look. The 18-inch alloy wheels and black sport bar add an aggressive touch that reflects your style.

Safety technology outside and inside the truck protect passengers in all situations. Rise to a new level of perfection. The Chevrolet Colorado High Country Storm.

Powerful performance and premium Chevrolet design makes the Colorado High Country Storm stand out as a unique American truck.

**1. Black hood decal sticker and new front grille** Stand out with a unique design.

**2. Body decal and black door handles** Reflect sporty styling and intensity.

**3. Black sportbar indicates a unique identity.** 4X4 sticker adds sportiness and sleek looks.

**4. Black anthracite rear bumper and black tailgate handle** Combination of style and toughness.

**5. 18-inch black alloy wheel** Extremely sporty with front/rear tire size 265/60 R18.

**6. Black outside rear view mirror** Stand out with a dark design.

## INTERIOR DESIGN

Step into an elegant interior. The cabin of the all-new Colorado High Country Storm features refined craftsmanship, premium-grade materials and ergonomic design that considers the natural movement of your body in different driving situations.

Control switches and other features are positioned in easy-to-reach places. You can play audio and respond to calls using the multi-function steering wheel and you can communicate hands-free on your smartphone via Bluetooth. Colorado High Country Storm

also comes with many convenient features and advanced technology such as the Chevrolet MyLink infotainment system, navigation system, premium 7-speaker sound system, 6-way electronically adjustable driver seat, automatic glare-adjustable

rear view mirror (electrochromic), automatic air-conditioning and cruise control.

## TECHNOLOGY

Chevrolet MyLink features a variety of intelligent functions all within your control via an 8” touch-screen. Listen to the news on your favorite radio channels, watch popular TV series via AUX or USB inputs or view your photos from a slide show album. Should you receive a call, the system will automatically switch to call mode and the voice recognition feature lets you keep your hands on the steering wheel for a safer journey.

Moreover, the all-new Colorado High Country Storm is the first truck in its segment to offer phone integration through Apple CarPlay™.

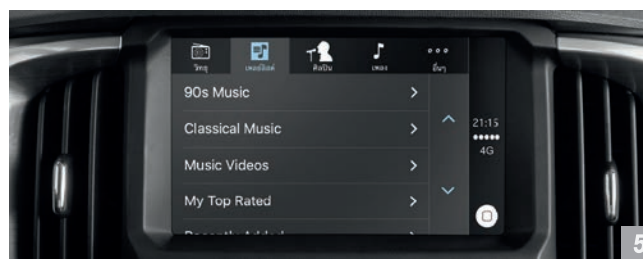

**1. Apple CarPlay™** The smart and safer way to use your iPhone when driving. Key functions of your iPhone are displayed on the touch screen, allowing you to make calls, read, write and send text message, listen to music from your library and use other applications on your iPhone.

**2. Siri®** A virtual personal assistant that travels with you everywhere. You can command Siri to perform various desired functions on your iPhone by using your voice in a variety of languages, including Thai.

**3. Messages** Using Siri® voice command, you can receive and send messages as well as ask Siri® to help you read and type your messages without looking at the screen while driving.

**4. Phone** Stay in touch and in control when answering or declining a call. Return a missed call or listen to voicemail without taking your hands off the steering wheel.

**5. Music** Stream and select your favorite songs from the music library on your iPhone or ask Siri® to search for a new song on Apple Music.

\*The Trademark of Apple and iPhone is the copyright of Apple Inc. of the United States of America and supporting countries. Apple CarPlay™ system is copyrighted by Apple Inc. Apple CarPlay™ is compatible with iPhone as noted in <http://www.apple.com/ios/carplay/>

## PERFORMANCE

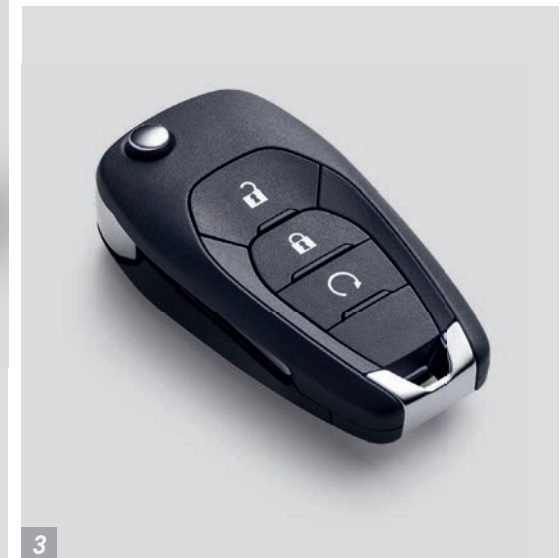

The engine is built with the best in automotive technology incorporating an optimum balance between power, fuel-efficiency and environmental consciousness. Delivering superior driving performance while offering functional usability and comfort.

**1. 2.5L Duramax Turbo Diesel Engine** Break new ground with a 2.5L Duramax diesel direct injection engine featuring 4 cylinders, 16 valves, DOHC with Variable Geometry Turbocharger (VGT) and an intercooler. Generating 180 horsepower @3,600 rpm and 440 Nm of torque @2,000 rpm. All power is transmitted via interchangeable Automatic and Manual 6-Speed gear modes for higher performance control. In addition, you can select from 2WD or 4WD to suit your required terrain.

**2. Electric Power Steering** The Electric Power Steering is highly precise and accurate. Steering weight varies according to the truck's speed.

- At low speed (driving in traffic jam or when parking)  
The steering wheel feels lighter in order to help you steer easier.
- At high speed (driving on highway)  
Steering wheel progressively gets heavier as you increase speed. This enables you to steer firmly with more stability. In addition, improved control and handling help you avoid accidents.

**3. Remote Start** The impressive remote start feature allows you to start the engine from outside the truck automatically powering up the air conditioning to 25° C, cooling your cabin before departure. The remote control also functions on all 4 electrically adjustable windows.

Remark: Standard equipment is different according to models. Please refer to the back cover of this brochure for more information.

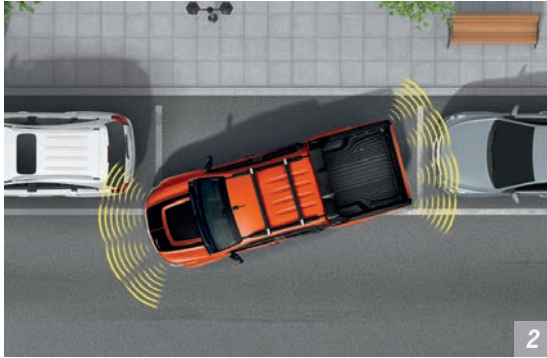

## SAFETY

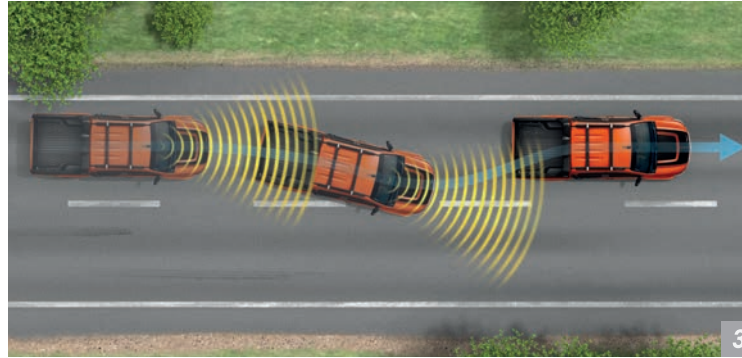

The Colorado High Country Storm delivers maximum safety through a combination of advanced active and passive safety functions that provide optimum protection for all passengers.

**1. Forward Collision Alert** At speeds of 40 km/h upwards, a camera mounted on the rear view mirror analyzes and evaluates the distance between your truck and the vehicle in front of you. If the truck comes too close to the vehicle in front, the system sends out an image and audio alert to the driver.

**2. Front & Rear Park Assist** Parking is easier with sensors installed in eight positions across the front to rear bumpers. The system sends out an image and audio alert making the driver aware of the distance between the truck and any obstacle.

**3. Lane Departure Warning** While operating at speeds over 60 km/h, the system detects when the vehicle drifts out of the designated lane while the turn signals are turned off and immediately sends out an image and audio alert to the driver.

**4. Rear Vision Camera** When the gear is in the "R" position, a wide-angle view of the area behind the truck appears on the 8" touch-screen. This Dynamic Guideline technology operates in real-time to help you back into tight spaces with ease.

**5. Driver Knee Airbag** Colorado High Country Storm offers more protection than other standard trucks with the driver knee airbag installation. It complements standard front airbag and seatbelt protection by also preventing knee and lower leg injuries.

**6. Tire Pressure Monitoring System (TPMS)** Check real-time tire pressure at all times. If tire pressure is too low or too high, the Tire Pressure Measuring System immediately alerts the driver through a digital information center on the instrument panel.

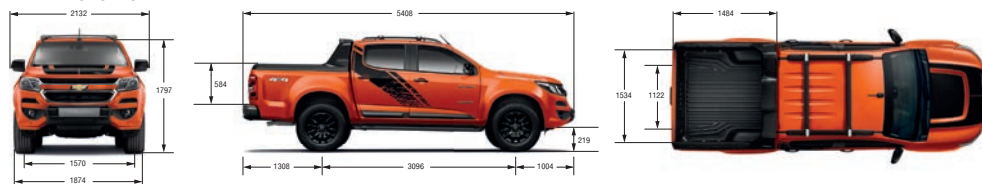

Remark: Standard equipment is different according to models. Please refer to the back cover of this brochure for more information.

## SPECIFICATIONS AND FEATURES

MODEL	High Country Storm 4x2	High Country Storm 4x4
<b>ENGINE</b>		
Engine Code	LP2
